a spectris company

Without measurement there is no control

Particle College®

April 8-9, 2020

Learn from our experts

“One very complete session on topic. Great presentation and delivery.”

–Wade Johnston, Ph.D. Senior Manager, Oct. 2019

“Very informative and well-structured course materials.”

–Yan Sun

Interactive seminars with industry experts

Learn theory, regulatory requirements, and practical application of contamination monitoring and control for clean / controlled environments.

To meet your specific needs the class is broken into two groups, each with specialized training material and instructors:

- Electronics/ Semiconductor (Air Focus): Particle counting and molecular monitoring
- Electronics/ Semiconductor (Liquid Focus): Particle counting
